

THREE MONTHS DIPLOMA IN FULL STACK WEB DEVELOPMENT

Abreonix CyberSecurity Delivers
Top NIELIT-certified Training And Skill India
Digital Hub-certified .

Abreonix CyberSecurity

Web Fundamentals & HTML. LEVEL 1

- Module 01: Introduction to Web & Internet
- Module 02: Client-Server Architecture
- Module 03: What is Frontend & Backend
- Module 04: HTML5 Basics
- Module 05: HTML Tags, Attributes
- Module 07: Semantic HTML
- Module 08: Forms, Tables, Media Elements
- Module 09: Practical : Create static web pages using HTML

CSS & Responsive Design LEVEL 2

- Module 01: CSS Fundamentals
- Module 02: Selectors & Properties
- Module 03: Box Model
- Module 04: Flexbox & Grid
- Module 05: Responsive Web Design
- Module 06: Media Queries
- Module 07: Basic Animations
- Module 08: Practical : Design responsive layouts for websites

JavaScript Fundamentals LEVEL 3

- Module 01: Introduction to JavaScript
- Module 02: Variables, Data Types
- Module 03: Dynamic Typing in JavaScript
- Module 04: Operators & Conditions
- Module 05: Loops & Functions
- Module 06: Arrays & Objects
- Module 07: DOM Manipulation
- Module 08: Events Handling
- Module 09: Error Handling & Debugging
- Module 10: Practical : Interactive web pages using JavaScript

Abreonix CyberSecurity

Advanced JavaScript

LEVEL 4

- Module 01: ES6 Concepts
- Module 02: Arrow Functions
- Module 03: Spread & Rest Operators
- Module 04: Callbacks
- Module 05: Promises
- Module 06: Async & Await
- Module 07: Fetch API
- Module 08: Browser Storage
- Module 09: Asynchronous JavaScript
- Module 10: Error Handling & Debugging
- Module 11: Performance & Best Practices
- Module 12: Practical : Consume APIs and handle asynchronous data

Frontend Framework – React JS

LEVEL 5

- Module 01: Introduction to React
- Module 02: Components & JSX
- Module 03: Props & State
- Module 04: Event Handling
- Module 05: Conditional Rendering
- Module 06: Hooks (useState, useEffect)
- Module 07: Basic Routing
- Module 08: Practical : Build frontend UI using React

Backend Development – Node.js & Express

LEVEL 6

- Module 01: Introduction to Backend
- Module 02: Node.js Basics
- Module 03: Express Framework
- Module 04: REST API Concepts
- Module 05: Routing in Express
- Module 06: Middleware in Express
- Module 07: Node.js Core Modules
- Module 08: NPM & Package Management
- Module 09: Handling Requests & Responses
- Module 10: API Testing with Postman
- Module 11: Backend Validation & Security Basics
- Module 12: Project Structure & Best Practices
- Module 13: Practical : Develop backend APIs using Express

Database – MongoDB

LEVEL 7

- Module 01: Introduction to Databases
- Module 02: NoSQL Concepts
- Module 03: MongoDB Basics
- Module 04: Collections & Documents
- Module 05: CRUD Operations (MongoDB Shell)
- Module 06: Mongoose ORM
- Module 07: Mongoose CRUD Operations
- Module 08 : Practical: Connect backend with MongoDB

Authentication & Deployment

LEVEL 8

- Module 01: User Authentication Basics
- Module 02: JWT (JSON Web Token) Concepts
- Module 03: Login & Registration API
- Module 04: Password Hashing & Security
- Module 05: Environment Variables
- Module 06: Middleware for Authentication
- Module 07: API Security Best Practices
- Module 08: Testing & Debugging Auth APIs
- Module 09: Deployment Basics (Frontend + Backend)

Final Project

LEVEL 9

- Module 01: Full Stack Mini Project
- Module 02: Project Planning
- Module 03: Frontend + Backend Integration
- Module 04: Database Connection
- Module 05: Project Presentation
- Module 06: Advanced Persistent Threats (APT)

Version Control, Collaboration & Career Readiness LEVEL 10

- Module 01: Version Control with Git
- Module 02: GitHub & Collaboration
- Module 03: Deployment & Hosting (Extended)
- Module 04: Project Documentation
- Module 05: Career Readiness & Industry Exposure
- Module 06: Practical / Lab
